# 2017 AUTHORITY BUDGET MESSAGE & ANALYSIS WEEHAWKEN PARKING

## AUTHORITY BUDGET

FISCAL YEAR: FROM: January 1, 2017 TO: December 31, 2017

*Answer all questions below. Attach additional pages and schedules as needed.*

1. Complete a brief statement on the 2017 proposed Annual Budget and make comparison to the 2016 adopted budget for each operation. Explain any variances over +/-10% (As shown on budget page F-4 explain the reason for changes for each appropriation changing more than 10%) for each line item by operation. Explanations of variances should include a description of the reason for the increase/decrease in the budgeted line item, not just an indication of the amount and percent of the change. Attach any supporting documentation that will help to explain the reason for the increase/decrease in the budgeted line item. For example, if anticipated service charges have increased 15% due to an increase in rates, provide a copy of the resolution authorizing the rate increase.

- Cost of Providing Service salary & wages was reduced by approximately 27.1% or \$54,198.00 due to two full time positions being vacated. The same loss of positions also directly relates into the 11.98% decrease in the Fringe Line item. These positions are not being replaced.

- Another line item which has changed more than 10% is under Non-Operating Appropriations- Total Interest Payments on debt. This line item increased by 61.9% or 111,200 due to interest rates increasing from 1.5% to 2% on the outstanding Note.

2. Complete a brief statement on the impact the proposed Annual Budget will have on Anticipated Revenues, especially service charges and on the general purpose/component unit financial statements. Explain significant increases or decreases, if any. An increase or decrease is considered significant if it is over +/-10% (As shown on budget page F-2 explain reason for change for each revenue changing more than 10%) from the current year adopted budget.

The revenue decrease in the line item Parking Fees (98.2% decrease) is being reallocated under the municipal contributions and donations line item, (85.1% increase). Since all parking tax comes into the Township, the process is streamlined to show the revenue under the Municipal Contributions.

3. Describe the state of the local/regional economy and how it may impact the proposed Annual Budget, including the planned Capital Budget/Program. N/A
4. Describe the reasons for utilizing Unrestricted Net Position in the proposed Annual Budget, i.e. rate stabilization, debt service reduction, to balance the budget, etc. If the Authority's budget anticipates a use of Unrestricted Net Position, this question must be answered. N/A
5. Identify any sources of funds transferred to the County/Municipality as a budget subsidy or a shared service and explain the reason for the transfer (i.e.: to balance the County/Municipality budget, etc.).

**The Township provides funds to the Authority as shown under the "Local Subsidy" section of the budget revenue line item. Until the Parking Authority becomes fully self-sufficient, the Township will provide local subsidy to help balance their budget, especially since the Township guarantees the Authority's debt.**

6. The proposed budget must not reflect an anticipated deficit from 2017 operations. If there exists an accumulated deficit from prior years' budgets (and funding is included in the proposed budget as a result of a prior deficit) explain the funding plan to eliminate said deficit (N.J.S.A. 40A:5A-12). If the Authority has a net deficit reported in its most recent audit, it must provide a deficit reduction plan in response to this question. (Prepare a response to deficits caused by the implementation of GASB 68)

**As of December 31, 2014 the Authority's Unrestricted deficit was \$1,356,906 and was reduced to \$385,731 after the Township canceled a receivable due from the Authority of \$971,175. Results of 2015 operations caused the deficit to increase to \$503,490. The Township canceled another \$25,195 receivable due from the Authority in 2016 to further reduce the deficit. The remainder of the deficit will be further reduced by the proceeds of the meters which will be installed shortly and will generate, conservatively, \$150,000 to \$175,000 annually. As you will note once again, the full proceeds of these meters do not appear in the Authority's budget at all and will be completely dedicated to the reduction of the prior year's deficit.**

7. Attach a schedule of the Authority's existing rate structure (connection fees, parking fees, service charges, etc.) if it has been changed since the prior year budget submission and a schedule of the proposed rate structure for the upcoming fiscal year. Explain any proposed changes in the rate structure and attach the resolution approving the change in the rate structure, if applicable.
